

Our Promise To You

We look forward to hearing from you and beginning our journey to increased land conservation in our province. Our team is proud of our effectiveness and efficiency. We will use both when working with you to achieve your conservation vision and establish your legacy.

In our conversations with you, we make the following promises to you and your loved ones:

- We will increase the amount of Nature Trust of New Brunswick protected land in our province from 8,000 acres to 15,000 acres;
- We will establish a Legacy Circle with conservation-minded individuals who gather each year to discuss the value of increasing the amount of protected land in our beautiful province;
- We will invite you to exclusive conservation events, donor appreciation events, and grand openings hosted at nature preserves throughout the province;
- We will keep you up-to-date on your gift in action (i.e. updates from the field, copies of our “Refuge” magazine and our annual Gratitude Report);
- We will send you campaign updates, and we will check in with phone calls as often as you would like;
- We love talking with you and will be available anytime to answer any questions you may have;
- We have materials that outline conservation options, gifts in your Will, information about our current projects, and more. All of which we would be happy to share with you.

I’m here to help! Please contact me anytime for a confidential conversation.

Yours in conservation,

Stephanie Merrill, Chief Executive Officer
